Subject: RE: FOIA Assignment for EPA-HQ-2018-001917

Hi Crystal—Here's a summary of the number items after January 2013 retrieved by Microsoft Outlook for each search term.

368	"Ramazzini Institute"
550	Birnbaum
300	Landrigan
855	"Thomas Burke"
1000	"Tom Burke"
1000	Portier
372	Belpoggi
634	glyphosate

I was surprised by the number of items, and a little investigation revealed that many items were retrieved because these phrases or names appear in an attachment. In many cases, I suspect, it might be because a reference list contains a paper published by one of the parties. Some items might be duplicates, for example, a reference list that contains both Birnbaum and Portier.

Please give me some suggestions for how to narrow the search, or some help.

Thank you,
Vince

I request that you provide me with the following records within twenty business days: 1. All correspondence (including attachments) a. For both requests, please produce records dated from January 1, 2009 through the date you process the request, inclusive. Rosen*, 484 F.2d 820 (D.C. Cir 1973), cert. denied, 415 U.S. 977 (1974). Additionally, any reasonably segregable portion of a responsive record must be provided to me after redaction of any allegedly exempt material, as the law requires. 5 U.S.C. § 552(b). I request the EPA not redact information it declares “nonresponsive,” as this is not an enumerated exemption under FOIA. Please produce all electronic data in its native format, preserving all metadata. Please make your production on a rolling basis if necessary: if at least some records can be produced without objection, produce those documents first. (GG0004)
